

Creek Technologies provides innovative information technology (IT) solutions, educational support services, and program management expertise to commercial and federal clients.

Capabilities Statement

Creek Technologies Company (CreekTech) is a Service-Disabled Veteran-Owned small business established in 2007 to deliver IT engineering, education, and A&AS services across the DoD and Federal government. Founded upon the Program Management Institutes' (PMI) *PM Body of Knowledge* (PMBOK), our firm's Program Management Office (PMO) has powered the successful delivery of complex support-service contracts by incorporating a mature quality management system that includes ISO 9001:2015, ISO/IEC 20000-1:2018, ISO/IEC 27001, and CMMI-SVC Level 3. Our executive team members are leading experts in their field, with 30 years of experience or more of demonstrated success in delivering and managing services.

MEET

The Cloud-Based Solicitation Management, IDIQ Vehicle Teaming and Proposal Management Platform

InfoSquirrel transforms how small businesses operate in a federal contracting environment increasingly dominated by Indefinite Delivery, Indefinite Quantity (IDIQ) vehicles. Advanced matching algorithms match subcontractor capabilities to solicitation requirements, while the proposal generator and knowledge management system powered by artificial intelligence (AI) enables primes to dramatically increase proposal volume and quality.
